

WE HAVE A NEW WEBSITE: www.cogwheelinternational.org

With thanks to Esther for designing it for us, please check it out!

From the youngest to the oldest, it is agreed that a Wednesday morning is the best time of the school week as we have our worship service. It starts at 8.00am and finishes at 10.30am. It is a time of prayer, worship, testimony and message. Whatever part a child is involved in, they do so enthusiastically. The dancing and singing are infectious and I guarantee it is impossible to remain still and not move even a little and the message? A cheer goes up to welcome the speaker and they place their opened Bible on the makeshift pulpit – a drum.

From left to right – sometimes we have to go beyond the type of help we planned as our children grow up and are presented with difficulties and problems no one could anticipate. **Brenda** stays with us although she has now left school, she is attending college studying catering but specialising in baking – believe me her cakes are good. **Godfrey** struggled at school academically and wanted to leave to start farming with his grandmother, we have had a pigsty built for him and we have two piglets ordered for him to care for, the grandmother's pig is looking forward to having neighbours in the near future. **Ronald** recently lost his grandmother who he lived with and now has to care for himself. In order to help him continue his studies, he gets all his meals at our school and we provide everything he needs. Life can be hard at times for our older children and we need to be there for them.

Preparing the beans

Cooking the rice

Enjoying lunch

CHILD SPONSORS ARE ALWAYS REQUIRED, ONLY £25.00 MONTH IS GUARENTEED TO CHANGE A CHILD'S LIFE
